Subject: Response to your letter concerning GMO follow-up

Dear Mr. O'Sullivan:

Thank you for your letter regarding recent bilateral discussions on agricultural biotech products. We agree that the general discussion at the February 28 meeting was very useful. In particular, the meeting identified issues that we believe would benefit from further discussion.

We hope we can meet again in the coming weeks. I anticipate that my colleague Jim Murphy will continue to take the lead in these conversations from our end.

Sincerely,

John K. Veroncau
